

May 28, 2010

**To Residents, Businesses and all Condo Boards and Property Managers in Ward 20:**

*For Condo Boards and Property Managers, please see important note at the bottom of this communication.*

Information was released today by the Integrated Security Unit (ISU) on security measures related to the G20 summit to be held in downtown Toronto on June 26 and 27.

Please find attached to this letter a notice to be posted in the lobbies and the elevators of your buildings. Also included is a map of the security perimeters proposed and links to ISU websites where you can get up-to-date information. Please be advised that information is subject to change without notice, and updates as needed will be forwarded to as it becomes available.

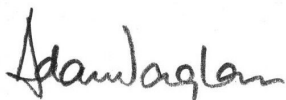

All of the information in this package has been vetted by City Officials and the ISU. Please remove any prior notices or unauthorized communications related to G20 security when these notices are posted.

My office is working hard to organize another town hall for all affected residents in the downtown. I am also continuing to work hard to make sure full compensation packages and programs are established to help residents and businesses affected by the G20 summit. So far the Federal government has refused to acknowledge responsibility.

**CONDO BOARDS AND PROPERTY MANAGERS**

**Please check your insurance policies. Many policies do not cover damage done by civil unrest. Please also review security plans and shift schedules for the week of the G20. The Federal Government has refused to offer a compensation plan for damage done by protestors. Make sure you are protected. We are trying to arrange a special meeting of condos directly impacted by the event. More information is will follow as it becomes available.**

Best regards,

Adam Vaughan  
City Councillor, Ward 20 – Trinity-Spadina
